

FALL 2023 WEEKLY NET GAME

The weekly Net Game payout is funded by the prepaid \$5 per player per week along with the \$5 entry fees collected from players who sign up to fill available spots on a week-to-week basis. Payout is based on net score. Fall League Players without an established League HDCP will play as a “scratch player” until 2 scores are posted to establish a League HDCP. The weekly payout goes to a minimum of 3 players and will include any player who posts a net score of par or better. For example, if only 1 player is at net par or better, the next 2 best scores also win money. All ties will split the winnings, no scorecard playoff or other tiebreakers. The weekly Net Game payout distribution will be as follows:

FALL 2023 FedEx Cup

The Fall FedEx Cup is funded by \$5 per player from those who pre-paid the \$40 entry fee. (Players who fill available spots on a week-to-week basis do not earn points and they do not participate in the FedEx Cup). Points will be awarded each week and at the conclusion of the Fall Season the payout will be based on cumulative points from the best 5 out of 7 weekly points earned by each player. Payout will be 50% of pot to 1st Place, 30% to 2nd Place, 20% to 3rd Place. Ties will split the individual winnings. For the Fall FedEx Cup, each week points will be awarded on a linear scale as follows:

| FedEx Cup Points Distribution | | | | |
|-------------------------------|--------|--|-------|--------|
| Place | Points | | Place | Points |
| 1 | 400 | | 21 | 200 |
